B3 - Batch.

Program: Shell script to find the power of a number.

```
echo "Enter number and the power."
```

```
read n
```

```
t=$n
```

```
while [ $p -gt "1" ]
```

```
do
```

```
    n='expr $n \* $t'
```

```
    p='expr $p - 1'
```

```
done
```

```
echo "Answer = "$n.
```
